Internet User and Parent/Guardian Permission Agreement

Please read this document carefully before signing.

Internet access is now available to students and teachers in Most Precious Blood Catholic School. We are very pleased to bring this access to our school and believe that the Internet offers vast, diverse, and unique resources to both students and teachers. Our goal in providing this service to students and teachers is to promote educational excellence in schools by facilitating resource sharing, innovation, and communication.

The use of the Internet and related technologies must be in support of education and research and consistent with the educational objectives, purpose, and Christian mission of the Catholic schools. Use of other organizations' networks or computing resources must comply with the rules appropriate for these networks.

As a condition of being allowed the privilege to use the Most Precious Blood Catholic School computer network, I hereby agree to comply with all Diocesan and school policies regarding Internet use, and the rules, terms, and conditions of the User Agreement and to honor all relevant laws and restrictions.

I understand that my use of the Internet connection in the school is a privilege, not a right. Inappropriate use will result in a cancellation of those privileges. The school administration determines appropriate use and their decision is final. Further disciplinary action may follow as indicated in the school handbook.

I understand that I am expected to abide by the generally accepted rules of network etiquette. These include (but are not limited to) the following:

Network Etiquette

1. Be polite. Do not send immoral or abusive messages to others.
2. Use appropriate language. Do not swear, use vulgarities or any other inappropriate language.
3. Illegal activities are strictly forbidden.
4. Keep your personal address and phone number private and do not reveal the phone numbers of other students or colleagues.
5. Note that electronic mail (e-mail) is not guaranteed to be private. People who operate the system do have access to all mail. Messages relating to or in support of illegal activities will be reported to the authorities.
6. Use the network in such a way that will not disrupt the use of the network by other users.
7. Note that all communications and information accessible via the network should be assumed to be private property.
8. Inform the technology facilitator of any security problem immediately.
9. Inform the technology facilitator of any unsolicited on-line contact immediately.
