We're winding down to the end of our fiscal year: Feb. 29<sup>th</sup>! In the first few weeks of March, profit reports are generated and monies are distributed back to the church and school families. A couple of important points:

1. If you have a relative or friend contributing to your family's SCRIP account, then your family must also be an active SCRIP participant. If you buy SCRIP on a regular basis with your profits currently assigned to *another family*, ask that family if they are SCRIP participants. If not, you can choose another family or church utilities to assign your profits to.
2. For those that receive receipts when purchasing SCRIP: Remember, new software changed how those look. The "Contribution" column reflects total profit. Divide that in half to determine what profit you'll see coming back to you.
3. If your current 8th grader is continuing on to Luers or Dwenger, make sure we know about your choice by the end of February.
